

Blackwell's People...

By Mr. Blackwell

Janette Archer says... "Wake-up looking beautiful"...

We even shock ourselves some mornings when we get up... Completely without make-up and looking most of the time like we have been whisked through a time machine looking like someone we don't even know... Now there is an answer for the very basic make-up that we need in order to look great... It's, believe it or not, permanent make-up done to a minimum., just to give us that fresh look... Doing this procedure right does not keep you from changing your fashion look with all the new things on the market...

It's really dynamite and the lady you must know is Janette Archer... she has been applauded on some of the hottest TV shows and magazines... Located on Camden Drive, you might call her at (310) 226-7160 and get all the happy answers... It just might make all the difference in the way you feel about yourself... Done right, it can be sensational... And Janette is a master... However, you must understand that even though I believe in something you are still on your own when you go... I have always felt compelled to discuss some of my discoveries but, you make up your own mind... Personally I am for anything that makes us look better...**Mr. Blackwell**
